

SA-341G Gazelle

Registration: YU-HEY  
Serial Number: 1320

## YU-HEY | SA-341 Gazelle

This is a great opportunity to purchase a true civilian AS341G. Not only is this Gazelle a civilian aircraft it is also the stretched version, which are quite hard to find. This helicopter has been maintained regardless of cost by a UK specialist. Presented in blue metallic paint with gold accents externally, with blue and cream leather inside both of which are in excellent condition.

To celebrate the 50<sup>th</sup> Anniversary of the Gazelle, a fly-in was organised by Threshold.Aero held on the 8<sup>th</sup> April 2017 at AAC Middle Wallop Hampshire; the home of Army Aviation in the United Kingdom.

Amongst both military and civil Gazelle's, YU-HEY joined the gathering at Middle Wallop with most notably two variants from the French Army on display. An impressive 50 Gazelle's attended the Fly-in.

Good Calendar Component Times remaining.
